

What needs doing

Five months to UDA nominations. Ordered by when each item has to start, not by importance.

THE EIGHT ITEMS

- 01

Confirm the coffee harvest window. One call to Baraka College or the county AFA office. The filming schedule follows this date.

THIS WEEK
- 02

Caption every post. Free and immediate. Same account, measured: 80,500 views against 802.

THIS WEEK
- 03

Pin the drifting figures. Scholarships appear as 409 and 449; the target as 3,500, 4,000 and 120 per ward.

THIS WEEK
- 04

Count the surviving trees. A 90% rate circulates from a supporter's estimate. Measure it before it is printed.

SEPT
- 05

Start owning the footage. Film every appearance in full, publish same day.

SEPT
- 06

Film the harvest. 2023 trees are bearing now. The window does not come back.

OCT-DEC
- 07

Publish the evidence page. Sourced figures, ward breakdowns, honest gaps.

NOV-DEC
- 08

Release and screen the film. Six sub-counties, in halls, before it goes online.

JANUARY

One decision to make early

That measured numbers get published even where they are lower than hoped. Agreed in September this costs nothing. Agreed in December it costs an argument.

THE SHEETS

- 01

The Film
Kahawa na Mama, documented properly
- 02

Owning the Footage
Same-day capture and publishing
- 03

The Weekly Rhythm
Sixteen weeks of short video
- 04

One Visual Identity
Recognisable at a glance
- 05

The Evidence Base
Where claims can be checked
- 06

Numbers People Understand
Charts that answer false figures
- 07

Verification
Keeping every claim traceable

NOT MINE

Polling needs a licensed firm. Election law, campaign finance and the cooperative branding question need a lawyer. Ward organising is its own discipline. Someone else owns overall strategy.
